

“Waking the Nightmares”

LIGHTS, CAMERA AND ACTION! *

It all became the sound
Of my guitar playing the music
Of a crowded room then
She gave me endings I can't choose
For this story

Sometimes it brings me down
That this words will burn your mind
I just want you to know
That your tongue has just rotten mine

(Chorus)

From a cat fight then a sex scene
Just to keep the audience on
Cat fight then a sex scene
Just to keep the audience on

Then the scream of my conscience
Wasn't louder
Than the silver trigger of a Colt44
My way to fix this
It's breaking you

You don't have to play with my brains
To notice you don't really mean this
Get a hold on yourself or
Get a hole in your head!

And again it brings me down
That this words will burn your mind
Yeaaah!
I just want you to know
That yours just so happen to be rotten mine
Alright!

(Chorus) x2

I've been told that I can't
That I cannot trust you
I've been told that
As long as you stay, I'll be able to fix this (x2)

But I cannot fix this... no
No I cannot fix this!

Then it all became
The sound of my guitar
It all became
The sound of my guitar (x4)

ALZHEIMER *

Can't remember my name
I get some visits every now and then
This one says he's my son
I must have plenty cause they come and go

Please stop
I can't remember
Please stop
I can't remember

(Chorus)

I'm in the dark
And I'm kicking
Will prove you all that you're wrong
There are no leaves in my branches
But I will rise from this fall

Can't remember the pills
Can't remember the illness
I don't know what is wrong with me
I'm a shell of a man with a leak

Please stop
I can't remember
Please stop
I can't remember

(Chorus)

I'm in the dark (x4)

Never was completely happy
I never knew if my brother loved me
This one goes for my mother... my mother
Choose wisely who you'll forgive

Then maybe I was... (Happy, loved)
I just can't remember how
Maybe I was... (Forgiven)
I don't remember you feeling proud

You are still here in me
Are still here in me
Are still in me
Are still!

You... You
You... You
Are still here in me

You... You

You... You
In me!

SERMONS ON ENDING TIMES *

Let's stop pretending
You and I
This war is all we care
I should have known you'd betray your soul
Woow woow woow woow

Listen to my words
as I lay here to die
Listen to my words
As I lay here dying
I lay here dying

(Chorus)

If there's one way to get out I'll find you
If there's truth in your tears I'll reach you
This riot will pump blood
In the veins of this city

Makes easier going to hell
When you know that you don't
Belong among the rats
But you get harder to burn
And when you finally consume
You smell like flowers
And not pig slime

Listen to my words
As I lay here to die
Listen to my words
As I lay here dying
I lay here dying

(Chorus) x2

(pray): And I believe that the word will save your
soul... the end is near... be silent and listen to the
lord...

Wuuu

Some people say
When they lock him up
A dark cloud stood grieving in the skies
Some say
It's not natural
For a cloud to groan and to growl

They say she couldn't take it
He knows she couldn't handle it
And that cloud hasn't stop striking lightnings
Since he found out
That cloud hasn't stop striking lightnings
Since he found out (x2)

CROSS & CROWS *

Why don't you go for help?
I heard your conscience's been bleeding since we last
spoke
It was about time for that beast to die

Vampires... lycanthropes
Hold your fire we've got bigger problems than us
It's an abattoir stinking enemy...

Raise the crows and
They will rip your eyes
Raise the cross and...
They will break your spine... Your spine
Your spine!

(Chorus)

What we hate will bind us together
What we loved has brought more slaughter to this
place
These streets... their screams

By now imprisoned by the needles around your
shrine
Who crafted this master plan
In my skin and it's not coming of
It's not coming of

From here you can hear the howls of those
Red and blue sirens chasing me across this town
Like a hungry dog hunts a trace of blood

Raise the crows and
They will rip your eyes
Raise the cross and...
They will break your spine... Your spine
Your spine!

(Chorus) x2

If this is called sinning
Well then
Race me to hell
This is called sinning!
Well then
Race me to hell

SAY *

Doesn't take a minute half
To see how rushed I'm for a crush
These wounds are unbelievable
Do you wanna play a game?
Come inside and blame my pain
Sugar hearts melt down by tears

(Chorus)

What do you want me to say?
What do you want me to do?
This was unexpected
With no time to use my reflexes
What the hell?

Then she enters the room
With this dawn amber light
My lips start to shake
And my heart starts to fight
These are the very moments
You're starting to feel alive
These are the very days
You're starting to feel alright

(Chorus)

And all my friends say that you are all the same
Love is just a fairytale
To sell films

And I'm starting to loathe you again
Naughty come fill me with pain...
I still love you

I'm starting to loathe you again Naughty come fill me
with pain...
I still love you(x4)

What do you want me to say?
What do you want me to do?
What do you want me to say?
What do you want me to do?
This was unexpected

SHE *

If I confess all this poison cancer looking guilt
She'll deny it until her mouth is
Fulfilled with worms
She counts on me to carry this burden
Pictures of childhood are burning...

(Chorus)

She makes me know
Makes me know
These sins of us won't ever die
She makes me know
Makes me know
These sins of us won't ever die

(Whisper)"murder murder"
(Police):"I think you're not telling the things in the
right order are you?"

I'm taking back the words
I will confess know
but it was useless she
Dodge bullets blaming me

If I confess all this poison cancer looking guilt
They'll think my brains were burn and...
Your useless daydream self-indulgence
Ran out of its fume
And it stinks like a heavy body bag

(Chorus)

And who am I lying to
I love her and I won't talk
Who am I lying to
With all the air in my lungs I'll scream that...

Who am I lying to? (who am I lying)
I love her and I won't talk
Who am I lying to?
With all the air in my lungs I'll scream lungs

(Chorus)

VOID IN HEARTS *

The sweet perfume
Of raw flesh
Was escorted by that
Rush of blood
Makes me now
That you are no saint
Over me in a record time

I clench my fist every time he smiles
If it wasn't for him we would be alright by now
I'm spending my nights alone

I feel a lot better now
Scars are forever
We are running out of
Hearts to play with

(Chorus)

When the stars are up above
I'll be drinking all my lust
Would be proud if you had listen
That I gave you all my trust

When the stars are up above
I'll be drinking all my lust
Would be proud if you had listen
My advice alright!

Love really taste much better
When you try skin... wow woho
We're running out of clovers and clever lies for
lovers (lovers... Lovers)
I want my life back

I clench my fist every time he smiles
If it wasn't for him we would be alright by now
I'm spending my nights alone

I feel a lot better now
But scars are forever
We are running out of hearts to play with.

(Chorus)

Croupier said
That she's been lying
Croupier said
That she never had a heart to give
Since I don't have anything to lose
Share your love with me
So I can gamble again

Feel a lot better scars are forever
You'll see what I mean
Feel a lot better scars are forever
Play this void in...
Play this void in hearts

JACK AND THE HARLOTS *

I hear your knees crumble to the ground
Boohoo! Did the knife in your guts said
You're part of the odds now?
That's right so sad

Mary that's one pretty hat
Honey this isn't that bad
If you care about your image so

The stains matches that dress
The more you move the more you bleed
It's a matter of time

(Chorus)

Killing is a lot like dancing
I held your hand
You stabbed me

Killing is a lot like dancing
I held your hand
You stabbed my heart

You've got a mail
The content half a kidney that I used to feed myself
Gotta hold me or stop me now
Stop me now!

You should hurry up and catch me cause
The closest that you've gotten to me
Is to hear the screaming last words
Beneath my shadow!

The stains matches that dress
The more you move the more you bleed
It's a matter of time

(Chorus) x2

ROCK AND ROLL BABY!

The stains matches that dress
The more you move the more you bleed
It's a matter of time

(Chorus)

You stabbed me... You stabbed my heart!

MEMORIES OF LOVE AND MISERY (LOVE YOU) *

Remembering the smell of your hair
My weight pressed your waist
Hummingbird thinking creature
That confuses the lips with sweet
If this is what we got
I got better plans

(Chorus)

I love you... love you
Now I take back
Have you ever thought I would give in so fast?

Love you... love you
Now I take back
Have you ever thought I would give in so fast?
What we got
I got better plans

Bad girls are good in these games
They'll mess your head until you learn how to play
If this is what we got
I got better plans

(Chorus)

Growing ivy
In my head
So much time
I rooted you
But is time for me
To cut you down
And I'll say to you
What you said to me...

This is what we got
I got better plans

(Chorus) x2

ATLAS *

Do you think that I asked for this?
Dreams that I had to leave
Were tokens got stolen?
Not allowed to be spoken of
Carry the world in your shoulders son

And I want to start again
And I want to start again

(Chorus)

Breathe and embrace the world
That atlas carries for you
Breathe and embrace the world
That atlas carries for you

When the weights bends down your knees
When your smile fades to grinded teeth

Now

A muted throat under a bathtub screams
Knuckles broke
Less paint in walls
You wanted me to talk
Your life is a play
My hands full of splinters
But I build your stage

I want to start again
And I want to start again

(Chorus)

When the weights bends down your knees
When your smile fades to grinded teeth (x2)

Here I'll carry the world
Here I'll carry the world
And here I'll carry the world
For you my son

Sit back I know you never wanted to hurt nobody!
Nobody!
Sit back I know you never wanted to hurt nobody!
Nobody!

Breathe and embrace the world
That atlas carries for you

When the weight bends down your knees
When your smile fades to grinded teeth

BETTER LIFE *

In my life
I've seen it all
Good gone bad...
Bad gone rich...
Priestess with no right to preach
Life... life... life... life...
But I'm here
I'm here and a new world will come
I'm here I'm here and a new world will come

(Chorus)

After seen all that I have been through how can you
judge
What I've done.
Have you seen all that I've begged and begged for a
Better life

Yes in my life
I've caused troubles
I fought fights
Fights between religion and science
Feared everything's lost
I've feared what they'll think of me... vanity
But I'm here I'm here and a new world will come
Here I'm here and a new world will come

(Chorus)

I'm singing at the doors of heaven
I'm singing cause' I can't get in
They say everything will be alright
When they know where to send my soul...
But you are no one to blame
Kid you are no one to blame

(Chorus) x2
